## Frontend Engineer

📞 +91 8237059592 ✉️ vinay\_bhamre@proton.me 🔗 linkedIn 🐙 Github 📍 Nagpur, Maharashtra

### Technical Skills

**Languages:** JavaScript, TypeScript, Core Java, HTML/CSS

**Developer Tools:** VS Code, Git, GitHub, REST-API, Chrome Devtools, JSON, Axios, Appwrite

**Technologies/Frameworks:** Node.js, Express, Auth, JWT, MongoDB, React.js, Redux, TailwindCSS, React-Router, React-Query, React-hook-form

### Projects

**Drawin - Online Canvas tool** | *React.js, Typescript, Node.js, Express*

- Developed a feature-rich drawing application, "Drawin," using React.js, TypeScript, Vite.js, and Node.js, Express, Socket.IO
- Implemented a wide range of creative tools, including real-time drawing, pencil, shapes, eraser, image upload, undo/redo, and background customization.
- Ensured an engaging user experience by incorporating intuitive UI, color picking, and line width adjustment for enhanced creativity and personalization.
- Focused on user-friendly features, facilitating solo artistic expression and providing a versatile canvas for creative endeavors.

**Kanban Style Task Management Web App** | *React.js, TailwindCSS, Dnd-kit*

- Developed using React.js, Redux Toolkit, and @dnd-kit for a seamless user experience. TailwindCSS and radix-ui library ensured a polished and responsive design.
- User-friendly design focused on simplifying task management through Kanban-style organization. Intuitive drag-and-drop functionality, modal prompts for adding columns and tasks, and a clean layout enhance productivity.
- Addressed the challenge of organizing tasks efficiently. Users can create boards for different projects, customize columns, and seamlessly move tasks within and between columns.

**Kryptohunt - A Cryptocurrency Tracker** | *React.js, Typescript, TailwindCSS, Shadcn-UI*

- Developed a dynamic crypto tracker using ReactJS, TypeScript, Tailwind CSS, Shadcn UI, and Coingecko API.
- Crafted for crypto enthusiasts seeking an immersive and user-friendly tracking experience.
- Engineered with React Context API for smooth state management, ensuring a seamless UI.
- Integrated local storage for persistent user preferences, eliminating the need for reconfiguration after page refresh.

**Maglo Finance Management Dashboard** | *React.js, React-Router, TailwindCSS, Shadcn-UI*

- Leveraged ReactJS, React Router and Shadcn UI to build a modern and sleek Finance Management Dashboard.
- Implemented a sidebar for intuitive navigation, ensuring easy access to key financial insights.
- Optimized efficiency by presenting and analyzing simulated financial data, facilitating more informed decision-making

### Experience

**Ambee**

**Feb 2023 – August 2023**

*Frontend Developer Intern*

*Bangalore*

- Developed Ambee Webhooks and C6 Emission Management to offer real-time climate insights and alerts, meeting the rising demand for timely environmental information.
- Translated design specifications into user-friendly frontend interfaces for both projects, ensuring consistency and responsive layouts.
- Enhanced the overall user experience across C6 and the push-based delivery system, streamlining processes and receiving positive feedback.
- Utilized a robust tech stack, incorporating ReactJS, Redux, Tailwind CSS, React Hook Form, React Router, and Shadcn UI library, for both projects, ensuring efficient and cutting-edge development

**Capaz Software Labs**

**Sept 2019 – Dec 2020**

*Web Developer*

*Nagpur*

- Developed several Websites with WordPress, Shopify, HTML5, Javascript, CSS3.
- Devised various custom responsive Wordpress and Shopify sites

### Education

**Bachelor of Engineering in Information Technology**

**2016 – 2020**

*Priyadarshini Institute of Engineering and Technology*
